The regulation includes methodologies for establishing billed amounts for the following types of charges: Acute inpatient facility charges; skilled nursing facility and sub-acute inpatient facility charges; partial hospitalization facility charges; outpatient facility charges; physician and other professional charges, including professional charges for anesthesia services and dental services; pathology and laboratory charges; observation care facility charges; ambulance and other emergency transportation charges; and charges for durable medical equipment, drugs, injectables, and other medical services, items, and supplies identified by Healthcare Common Procedure Coding System (HCPCS) Level II codes. In cases where charges for medical care or services provided or furnished at VA expense (by either VA or non-VA providers) have not been

established under other provisions or regulations, the method for determining VA's charges is set forth at 38 CFR 17.101(a)(8).

The regulation provides that the actual charge amounts at individual VA facilities based on these methodologies and the data sources used for calculating those actual charge amounts will either be published as a notice in the Federal Register or will be posted on the Internet site of the Veterans Health Administration Chief Business Office. Certain charges are hereby updated as described below, effective January 1, 2012.
